Digital Storytelling in Supporting
Immigrant University Students
Language and Technology Use Skills

**Co-funded by
the European Union**

E-STORIES ANNUAL NEWSLETTER I
2024

Introducing the project: A Vision for Innovation

The **E-Stories project**, funded by the European Union under the Erasmus+ program, aims to enhance the language, communication, and technology skills of immigrant & international university students through digital storytelling.

By integrating face-to-face and online learning with multidisciplinary approaches, the project seeks to make education more engaging and effective for students from diverse backgrounds.

Kick-Off Meeting Higlights, February 8-9, 2024

The project officially began with a kick-off meeting held in Konya, Türkiye, hosted by Necmettin Erbakan University. Representatives from partner institutions, including Konya Technical University (Türkiye), Paderborn University (Germany), University of Malaga (Spain), University of Crete (Greece), and WEBIN (Serbia), participated in the event. Discussions focused on project objectives, methodologies, and the roles of each partner in achieving the project's goals.

The Project Website and Social Media Channels

2024 also gave the official launch of the E-Stories project website and social media channels! Our website serves as the central hub for all project updates, resources, and outcomes, while our social media platforms keep you informed about our latest activities, collaborations, and insights into digital storytelling in education.

Transnational Partner Meeting 2 in Paderborn

The 2nd Transnational Partner Meeting of the E-Stories Project was held at Paderborn University, Paderborn, on November 13, 2024. The consortium evaluated the WP' and planned the details of WP3-Online Learning Platform on Digital Storytelling.

Completion of Work Package 2

The E-Stories consortium successfully finalized the course implementation of Work Package 2 (WP2), which involved the design and implementation of enriched language teaching programs for immigrant and international students. These programs combined digital storytelling techniques with traditional teaching methods to improve students' speaking, creative writing, and storytelling abilities, as well as their digital competencies and intercultural awareness. This achievement marks a key step in promoting digital storytelling in education. The implementation involved interactive learning experiences, equipping educators and learners with innovative tools and strategies. With WP2 completed, the project moves forward to its next phases, strengthening its impact on digital pedagogy.

Türkiye, Konya

Germany, Paderborn

Greece, Crete

Spain, Malaga

We are excited to launch the next phase of our project—transforming language education through digital storytelling into an accessible, inclusive online platform which will be embedded into the project website, e-stories.com.tr.
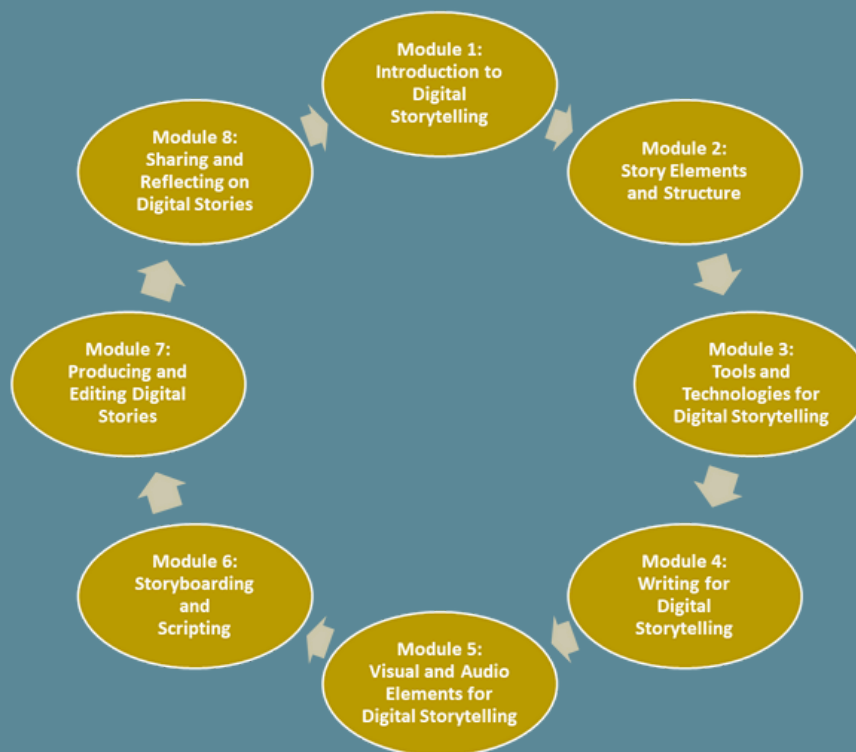

Its key component is an interactive course on digital storytelling, designed for both teachers and students.

The course will feature:

✅ Videos – Engaging instructional content to introduce concepts and techniques.

✅ Readings – Curated articles and guides to deepen theoretical and practical understanding.

✅ Quizzes – Interactive assessments to reinforce learning.

✅ Assignments – Real-world tasks to apply new skills.

By blending these elements into a structured eLearning experience, we aim to make language education more inclusive, accessible, and engaging for all.

An 8-module online training program on Digital Storytelling

Module 1: Introduction to Digital Storytelling

Module 2: Story Elements and Structure

Module 3: Tools and Technologies for Digital Storytelling

Module 4: Writing for Digital Storytelling

Module 5: Visual and Audio Elements for Digital Storytelling

Module 6: Storyboarding and Scripting

Module 7: Producing and Editing Digital Stories

Module 8: Sharing and Reflecting on Digital Stories

Co-funded by the European Union
